The situation at last became so serious that sup: Richards decided that he would not risk the lives of the men any further and the officers were ordered to withdraw about 2 o'clock, and did so safely. The strikers remained on the ground and at daybreak were reenforced by a couple of thousand more, who were determined to prevent the non-union men from going to work. They fined the railroad and blocked the roads leading to the washery and waited eagerly for the workers to appear. The company did not send them out, however, and the mob vented its anger on the railroad and tool house. The tool house was burned and, led by a Polish woman, a large crowd

Then the mob marched to all the cuin banks within three miles and stopped all the men screening coal. These were both union men and strikers, but it had been discovered they were selling the coal. In the Lehigh region alone only 50 per cent. of the companies, taking the tennage basis, have posted the notices agreeing to an advance of 10 per cent, over the September wage scale and to abolish the sliding scale. The big operators in the Lackawanna region not yet having complied with the provisions of the Seranton convention resolution on the tennage basis will make the percentage about the same as this region, so that the claims of 65 per cent, as made by President Mitchell are seriously questioned. The Coxes, G. B. Markle & Co., the Lehigh Coal and Navigation and Lehigh and Wilkes-Barre companies, in the fifth anthracite district, are the largest shippers and they have shown no disposition to post the notices as demanded by the United Mine Workers. These facts make the basis of settlement very doubtful.

The labor situation has added interest by the arrival of the officers of the labor federation here to-day. William Mahon, President of the Longshoreman's Union, are now here, and Volney Fitzgerald, Grand Master of the Brotherhood of Trainmen's Union, left for Freeland this evening, where he is attending a meeting to-night. Important developments are looked for by to-morrow.

Address by President Mitchell.

POTTSVILLE, Pa., Oct 23. -President Mitchel addressed a very large meeting of striking miners of the Reading Company's district this afternoon, after one of the largest labor dem-onstrations ever witnessed here. Thousands of miners were in line in their everyday clothes, with miners' lamps in their hats. Mr. Mitchell conveyed the impression to his heavers that negotiations were now well under way which he thought mount that all the miners would be back at work by next Monday.

An old bronchitis is rarely cured. The reason is partly: it is a disease of persons who can't change climate etc; and partly it can't be cured at all.

It can be greatly relieved by Scott's emulsion of cod-liver oil; it's the best one thing in the world for chronic bronchitis.

TELEPHONE CALL, 5 CENTS. Chicago Company Haives Its Rate and Will

Extend Its Service. CHICAGO, Oct. 23.-The Chicago Telephone Company has announced its decision to reduce from 10 to 5 cents the rate for service at pay station telephones. Five-cent slot machine telephones have already been installed on the North Side. Ten-cent telephones will be replaced at the rate of 300 a week in all parts of the city the rate of 300 a week in all parts of the city. The cut in rates means an aggregate saving to patrons of pay stations of \$500,001 a year, but the company expects, through increasing its business, to profit by the change. The average of the monthly receipts of 2,200 pay stations in the city is \$840. The aggregate receipts each year is estimated at \$100,000. In introducing the five-cent rate, the company expects to install 25,000 new pay stations, an increase to twelve times the present accommodations.
